

TESTING ONLY SERVICE: FOAM CONCENTRATE TEST

Thank you for using our Foam Testing Service!

This Instruction Guide will take you through step-by-step how to label and return your foam samples - and what happens next!

If you have any questions, please don't hesitate to contact us - send an email to info@foamtesting.com or give us a call on +44 (0) 1561 361515.

STEP 1: WHAT SAMPLES DO I NEED?

For each **Foam Concentrate Test Report**, we need:

- 1 litre of foam concentrate

For advice on how to take your sample, please visit www.foamtesting.com

STEP 2: WHAT BOTTLE SHOULD I USE?

You can use most plastic bottles to return your sample, but please note the following:

- **Size:** please use a bottle no larger than 1 Litre.
- **Type:** to minimise the risk of spillage, the bottle used must be made of sturdy plastic - not glass! - and have a strong, leak proof lid. For added protection, we'd advise shrink-wrapping the bottle or putting it in a plastic bag before sending.
- **Condition:** if using a second-hand bottle, make sure it's clean and dry - both inside and out - before filling. The bottle must be in good condition and have no dents or cracks.

STEP 3: HOW DO I LABEL MY SAMPLE?

Once you've taken your Foam Sample, you need to correctly label it.

Please label your bottle with the following information:

- **Company name**
- **Order Reference / Purchase Order No.** (provided on order confirmation)
- **Sample source**, eg truck, tank, port, ship, rig, etc.
- **Concentration**, eg 1% ■ **Foam type**, eg AFFF
- **Sample location point**, eg top, middle, bottom or mix
- **Foam manufacturer** ■ **Date of sample collection**

Tips:

- Use a permanent marker to complete this information.
- Ensure the bottle is clean and dry before writing on the label.
- Sample bottle labels can be downloaded from www.firefightingfoam.com/resources

STEP 3: HOW DO I PARCEL UP MY SAMPLE?

Place your sample bottle into a suitable box or a sturdy plastic envelope.

- Make sure the lid is on tightly.
- Protect the bottle or fill any excess space with bubble-wrap.
- Please clearly mark the parcel with our address:

FOAM TESTING LABORATORY
c/o OIL TECHNICS (FIRE FIGHTING PRODUCTS) LTD.
LINTON BUSINESS PARK, GOURDON, ABERDEENSHIRE,
SCOTLAND DD10 0NH UNITED KINGDOM

STEP 4: WHAT PAPERWORK IS REQUIRED?

Please return with your sample:

- A copy of the Safety Data Sheet for the foam sampled.

Note:

- It is very important a Safety Data Sheet is included: if one is not enclosed, your courier may refuse to take collection of your sample.
- If you do not have access to a copy, generic example Safety Data Sheets for different foam types are available to download from our website: go to www.firefightingfoam.com/resources

STEP 5: HOW DO I GET MY SAMPLE TO YOU?

Ship them to us direct at the above address, using your usual courier service.

STEP 6: WHAT HAPPENS NEXT?

Once received, we will test your sample and send your report within **5 working days** - or within **1 working day** if you've chosen our priority service.

- Your report will be emailed to you.
- If you would like hard copy posted out, please let us know.

IT'S THAT EASY!
